

Heirs Holdings

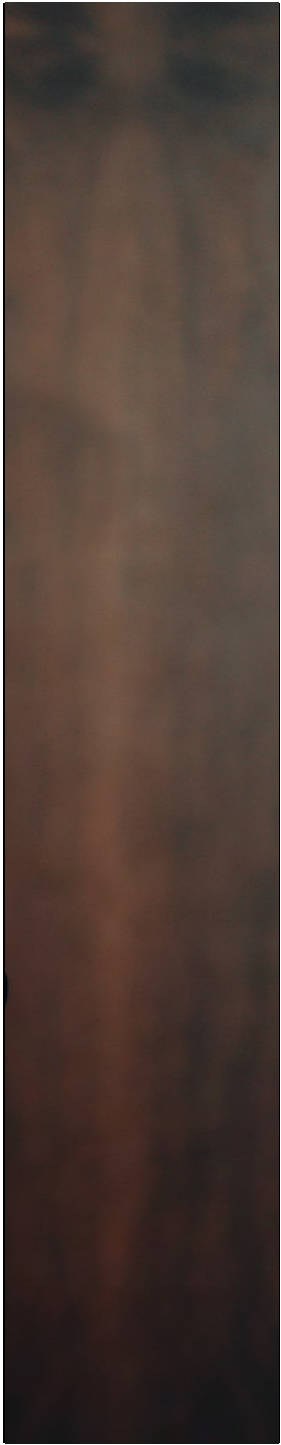

Improving Lives. Transforming Africa.

*“As a child, as a student, as a
young professional and now
as an entrepreneur, Africa
has always been the centre of
my dreams, my aspirations
and my prayers.”*

Tony O. Elumelu, CFR

Founder & Group Chair, Heirs Holdings

WE ARE LONG-TERM INVESTORS IN AFRICA'S MOST STRATEGIC SECTORS

Investing in Africa's Future

Heirs Holdings is a family owned investment company committed to improving lives and transforming Africa. Our portfolio spans the power, energy, financial services, hospitality, real estate, technology and healthcare sectors, operating in twenty-four countries worldwide.

We are inspired by Africapitalism, our Chairman, Tony O. Elumelu's belief that the private sector is the key enabler of economic and social wealth creation in Africa.

Driven by this philosophy, we invest long-term, bringing strategic capital, sector expertise, a track record of business turnaround and operational excellence to companies we invest in.

Our philanthropy, the Tony Elumelu Foundation catalyses entrepreneurship across Africa through its USD \$100million commitment to empowering young African entrepreneurs.

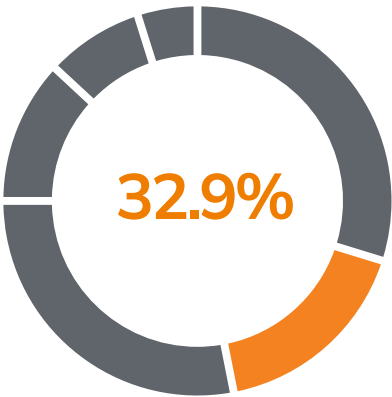

Our approach to investment is guided by the philosophy of Africapitalism, the private sector's commitment to Africa's development through long term investments that create economic prosperity and social wealth.

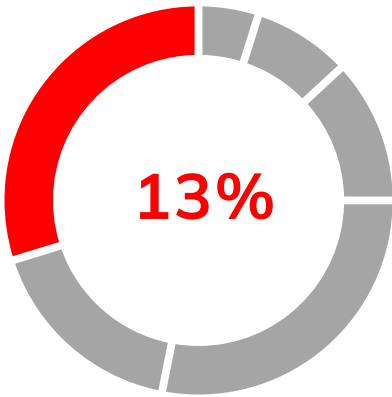

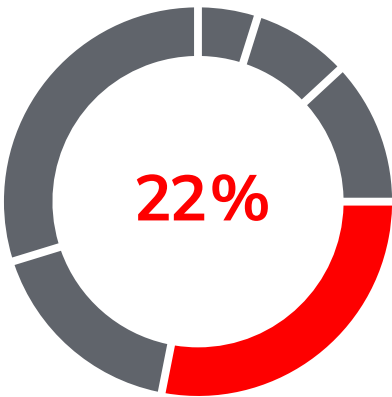

OUR INVESTMENT SECTORS

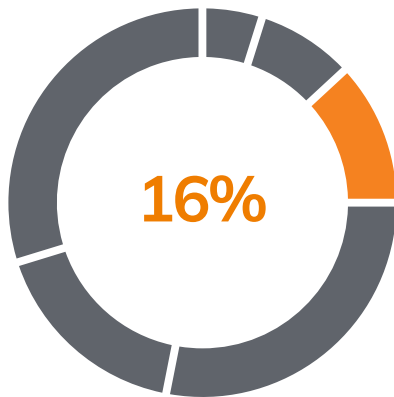

POWER

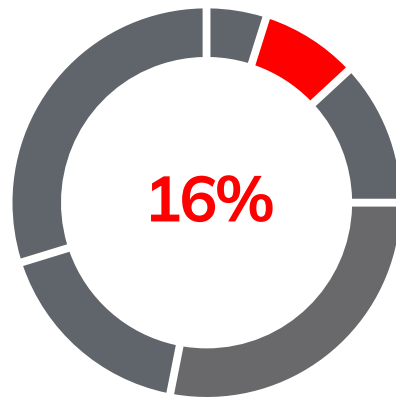

FINANCIAL SERVICES

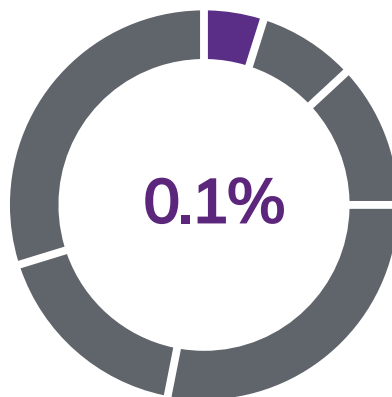

ENERGY

REAL ESTATE & HOSPITALITY

DIGITAL TECHNOLOGY

HEALTHCARE

POWER

Africa is home to over a billion people, 600 million of whom do not have access to reliable electricity. The supply of consistent, affordable power is critical to the economic and social advancement of Africa.

To play our part in bringing power to our continent, we have invested in Transcorp Power Plc and Transfam Power Limited, transforming them to become Nigeria's largest generators of electricity with a combined installed capacity of 2,000 MW.

We are committed to lighting up more homes, hospitals, and schools across Africa.

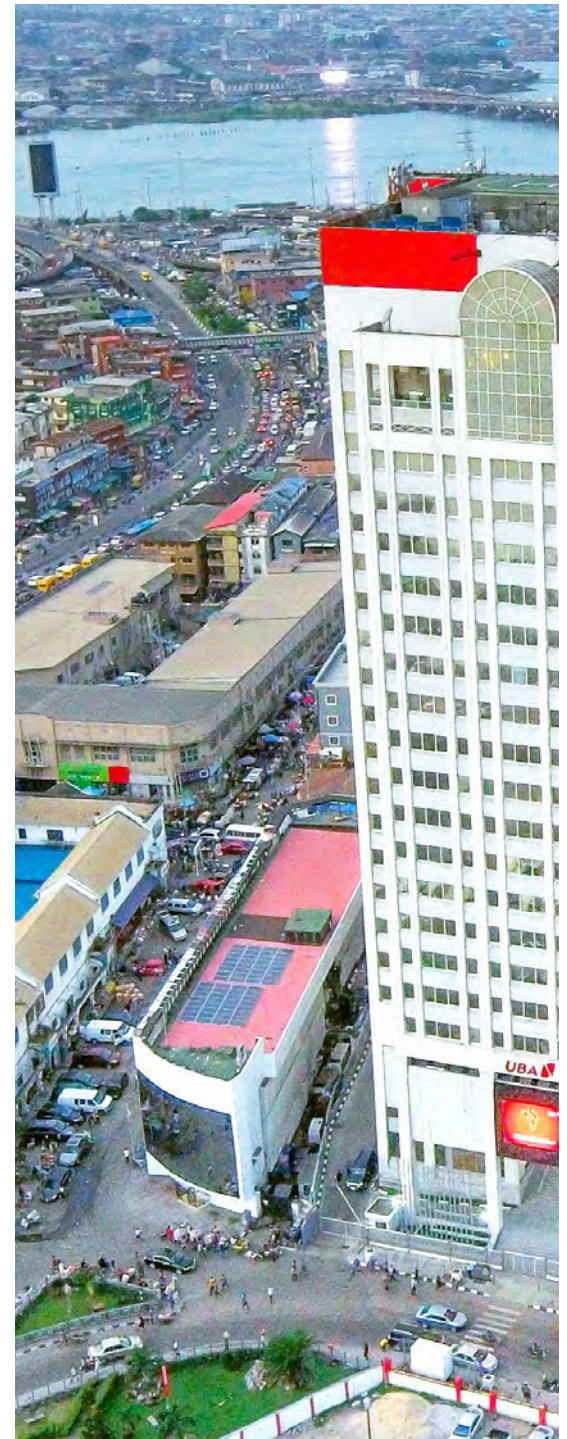

FINANCIAL SERVICES

The largest informal economy in the world exists in sub-Saharan Africa, with large unbanked populations.

The United Bank for Africa (UBA), Africa's global bank, is democratising access to financial products and services for these excluded segments, as it serves 45 million entrepreneurs, households and corporates. UBA is present in 20 African countries and in London, Paris, New York and Dubai. We are currently the only African bank with presence in the United States of America.

Our investments in United Capital Plc, Heirs Insurance Group (Heirs Insurance Brokers, Heirs General Insurance, and Heirs Life Assurance), and the only listed registrar services in Nigeria, Africa Prudential Plc; have deepened Africa's capital markets, facilitated closer intra-African trade and integration, while contributing to bridging Africa's infrastructure gap.

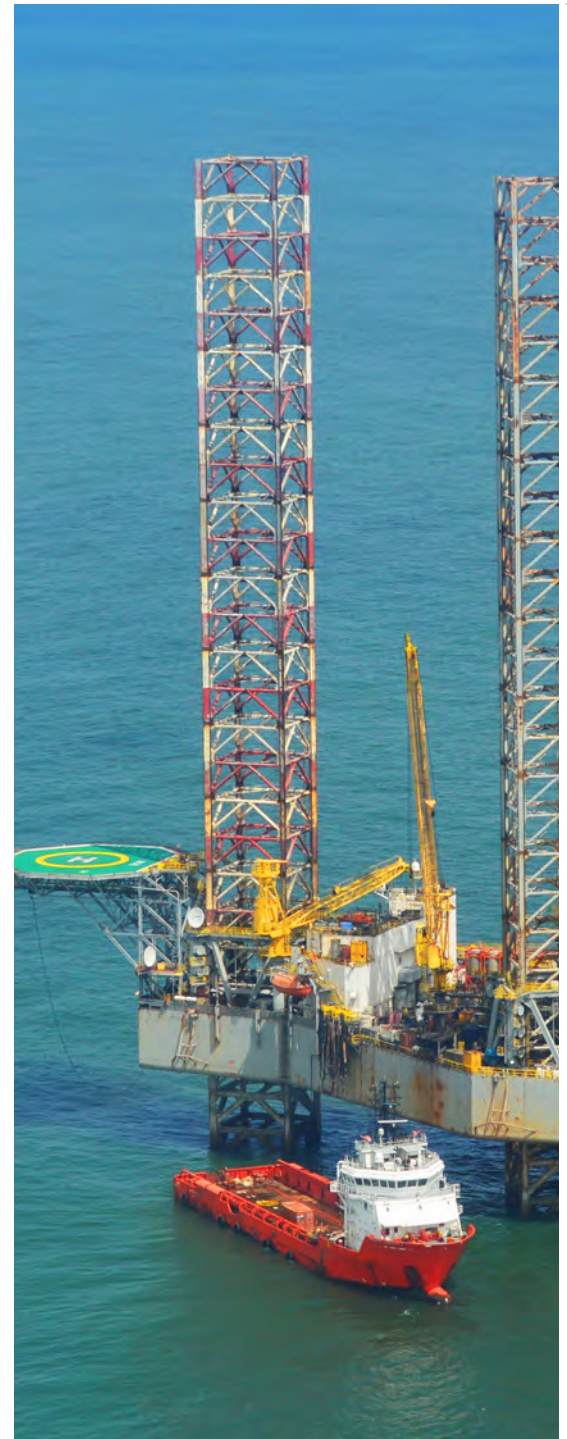

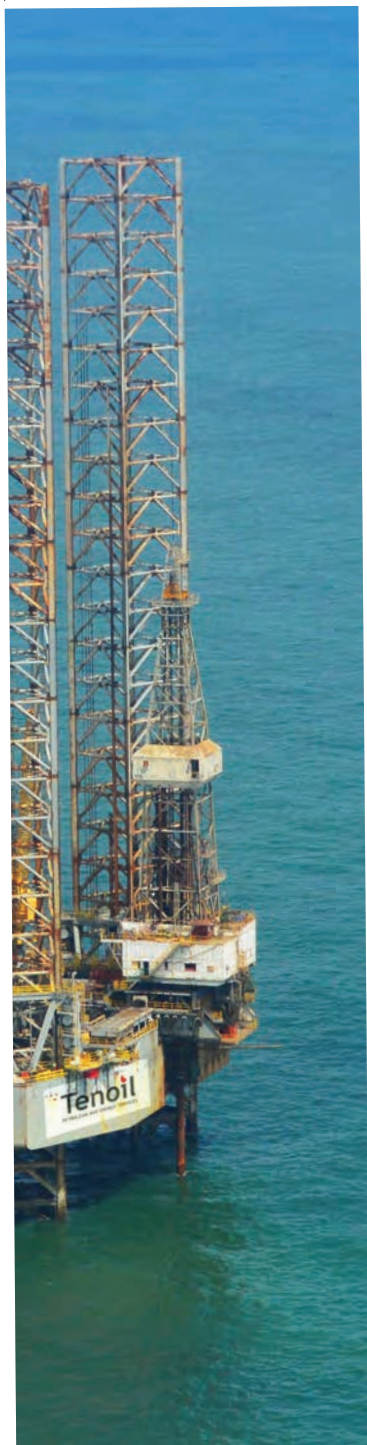

ENERGY

Energy companies are rethinking and refining the traditional strategies of doing business in the sector. With interests in the upstream, midstream, downstream, and gas-to-power sectors of Nigeria's energy space, we have made investments with the specific objective of linking production from oil blocks into domestic value chains and encouraging value-adding activities across Africa.

As operator of OML 17, Heirs Energies has doubled production to 53,000 barrels of oil and 100 MMSCFD of gas per day.

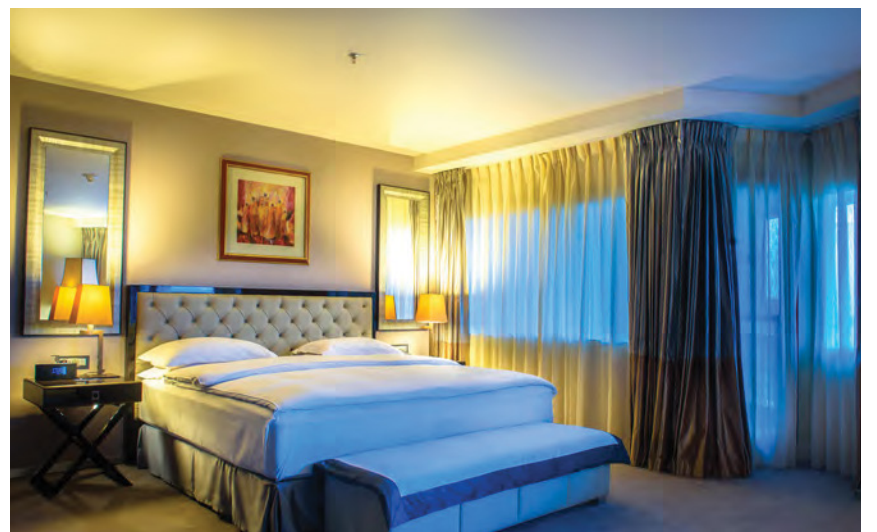

REAL ESTATE AND HOSPITALITY

An existing shortage of residential and commercial properties, intensified by rapid urbanisation and growing incomes, is increasing the demand for real estate. With a portfolio size of over N10 billion, our property management and development company, Afriland Properties Plc, is well-positioned to take advantage of these unfolding opportunities.

Our investments in hospitality include the award-winning Transcorp Hilton Hotel, Abuja, the largest hotel in sub-Saharan Africa, as we continue to grow our portfolio in the West African sub-region. Transcorp Hilton Abuja, a major contributor to the region's tourism industry is recognised as a national landmark and serves as the official host to all visiting Heads of State to Nigeria. It also hosts several global events including the World Economic Forum on Africa.

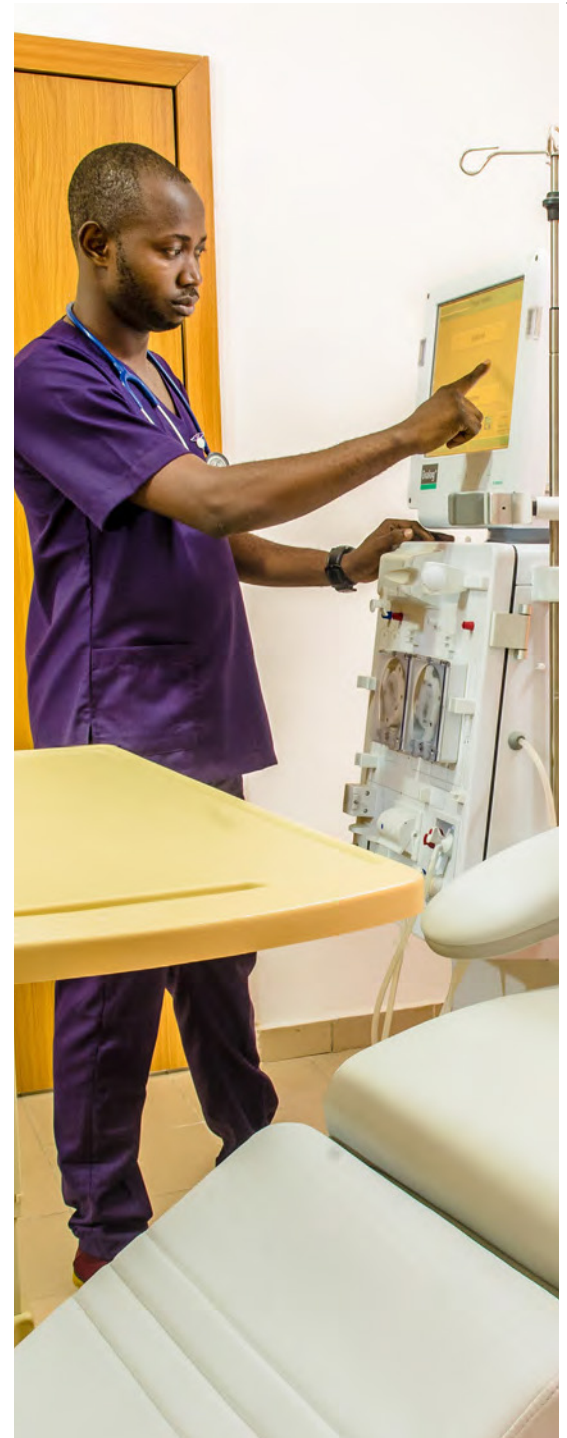

HEALTHCARE

Africa is the world's youngest continent. Our huge population is both an opportunity and a challenge. To positively harness our youth population, Africa must prioritise the provision of reliable and accessible healthcare that will ensure a healthy population now and in the future.

Through Avon HMO, our Health Management Organisation, Avon Medical Practice and Avon Dialysis Centre, we have invested in world-class health facilities, equipment and services that enable access to quality, affordable healthcare. The Chairperson, Avon Medical Practice, Dr Awele Elumelu, in her capacity as GAVI Champion for Immunisation in Africa, continues to work closely with a small group of global leaders to mobilise support for 10 million unimmunised children in Africa.

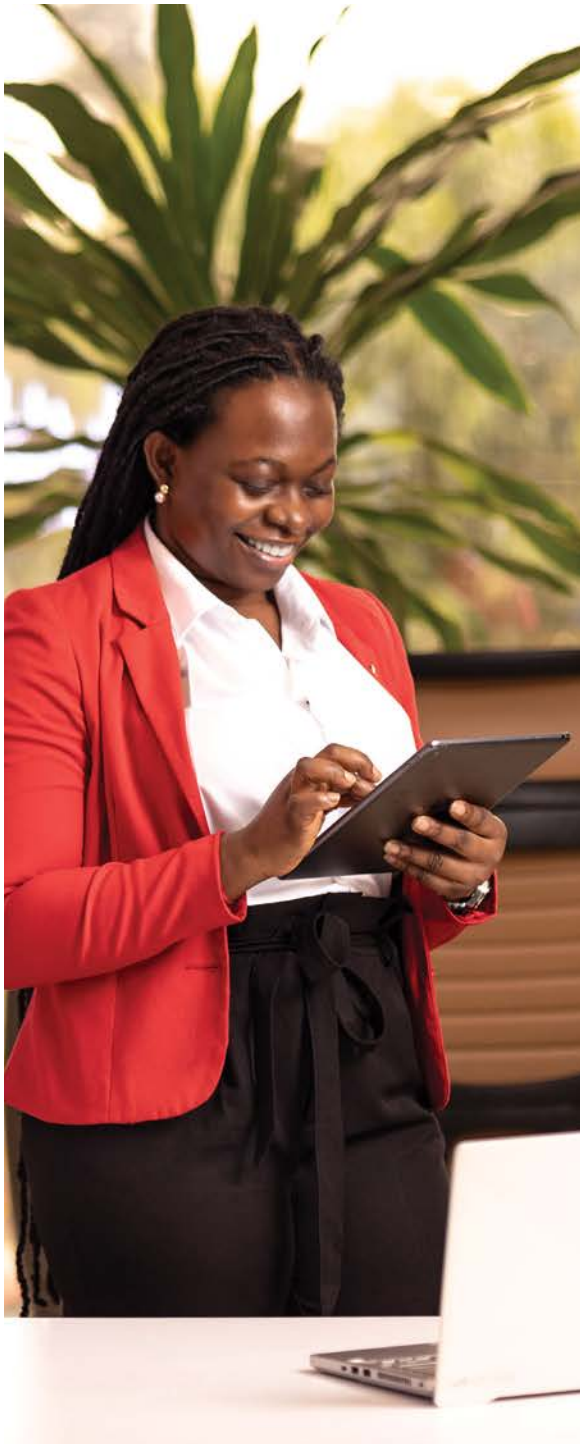

TECHNOLOGY

Driving Africa's digital transformation requires cutting-edge technology solutions and a robust payment infrastructure. By equipping businesses with the tools to scale and innovate, and enabling seamless, secure, and inclusive electronic payments, Heirs Technologies and Redtech are building the foundation for a thriving digital economy. With investments in technical expertise and next-generation solutions, technology is shaping a future that empowers businesses and individuals across Africa.

*We believe in doing well
and doing good; this is
the philosophy that drives
and guides our investment
activities. Heirs Holdings is
proud to support the work of
The Tony Elumelu Foundation.*

Committed to Empowering Africa's Entrepreneurs

The Tony Elumelu Foundation (TEF), the leading champion of entrepreneurship in Africa is funded by Heirs Holdings and represents our investment in humanity through entrepreneurship.

Founded in 2010, TEF has pioneered a new approach to philanthropy in Africa. The Tony Elumelu Foundation Entrepreneurship Programme is a \$100 million commitment by Tony Elumelu to empower 10,000 African entrepreneurs over 10 years. Thus far, the Tony Elumelu Foundation has surpassed this target, training, mentoring, and empowering 24,000 entrepreneurs across all 54

African countries and provides capacity-building support, advisory and market linkages to 2.5 million Africans through its digital networking platform, TEFConnect.

Over the last 10 years, the Tony Elumelu Foundation Entrepreneurship Programme has disbursed more than \$100 million to small business owners across Africa with the support of global partners including UNDP, Google.org, European Commission, ACP, ICRC, BMZ, UNICEF Gen U, CEDA, Seme City, GIZ, Sightsavers, AfDB Group, amongst others.
